

POSITIVE BEHAVIOUR FOR LEARNING (PBL)

Last week our new gotcha tokens arrived, reigniting the students drive to show respect for self, others and community. The purchasing of gotcha tokens and their collection tubes was instigated as a motion at student parliament where the student body voted in favour of the new system.

Students earn gotchas when they are 'caught' demonstrating respect for self, others and community. The children then place their gotchas in the new classroom tubes and later add them to the larger whole school tubes that are kept in the library. At the end of each term the house with the most

amount of gotchas, is rewarded. The PBL committee have decided to change this end of term reward from an ice block to a different reward each term. Stay tuned for Term 2's chosen reward!

Our PBL program promotes and reinforces respectful behaviour which has a significant and positive impact on our student's wellbeing and sense of belonging. The new tokens and tubes are a prominent visual remind for students, have sparked excitement across the school and has encouraged conversations around respect and the many ways the students can

demonstrate respect at school.

Our PBL focus for this past fortnight has been the wearing of correct full school uniform and students have been recognised for this with gotcha tokens. In the upcoming fortnight our PBL focus will be respectful behaviour in and around the toilets, koalas and their habitat. We have discussed ways to keep them safe and an enduring symbol of Australia.
